Cristiano Nattero, PhD

Marco Menapace, PhD

WHAT

The collage displays four distinct interfaces from the WASDI platform:

- Snap Workflows:** A workflow management interface with a search bar, a list of workflows (e.g., S3 Day FireDetection, S3 Night Cloud), and a detailed view of the 'S3_Night_Cloud' workflow showing its owner, description, and search parameters.
- SPACE MARKET:** A marketplace for geospatial data and services. It features a search bar, filters for category, developer, and ratings, and a grid of product cards. Products include 'Permanent Water', 'Active Fire', 'AUTOBAM On Demand', 'AUTOWADE On Demand S2', 'Air pollutants (S5)', 'Automatic AUTOBAM', 'Automatic AUTOWADE', and 'Automatic HASARD'.
- Map View:** A map interface showing a globe with various markers and labels, likely representing geospatial data points or locations.
- Filters Panel:** A detailed filter configuration panel for the 'CronTab' view. It includes a 'Providers' dropdown menu with options like 'WASDI Automatic Data Provider', 'LSA DATA CENTER', 'CREO DIAS', 'SERCO ONDA DIAS', 'Copernicus Open Access Hub', 'Earth Observation Data Center', 'PROBA-V MEP', 'SOBLOO Dias', 'NOAA Global Flood Map', 'CDS', 'PLANET', 'Terrascope', 'Wasdi Hosted Files', and 'GPM'. It also includes fields for 'From' and 'To' dates, and a 'Search' button.
